

OLYMPIA TRACKING

Tracking in the palm of your hand!

It's an iOS and Android-based application that lets you receive information that matters, straight from your mobile phone. OLYMPIA Tracking mobile application provides ONLINE web application features with a fast and user-friendly interface. OLYMPIA lets you track your assets from anywhere and at any time, even without access to a computer. Whether in the office or traveling, enjoy peace of mind and control your units with Olympia tracking.

Features of Olympia include:

- Real-time alerts sent to your phone
- Live device location viewing.
- Comprehensive device details
- View the notifications list from the app
- Details and location with each notification

Olympia offers true real-time tracking relays your fleet's exact location and detailed route information and status. This gives you greater insight to help reduce overhead costs while improving operational efficiency.

Helios Tracker superior technology - built to work better and last longer

All you need is a GPS-Capable iPhone/iPad or Android to access critical data on the go. Turn your phone into a tracker and monitor your assets by downloading the Olympia tracker from Google Android Playstore, Windows Mobile, and the Apple App Store.

Additional features:

- 🎯 Receive real-time alerts
- 🎯 View the location of your devices
- 🎯 Get all the details about each device
- 🎯 View your list of notifications
- 🎯 View each notification's details and location

Olympia Tracking is available for both iOS and Android-based devices. Managing your Fleet, Cargo, Merchandise, Assets and Team members is easier than ever.
